

**WILD BIRD CARE**

## Introduction

SOD company was founded in 1992 in Turek (Poland). It employs about 60 people working in two shifts. Since the beginning we have been producing wooden garden and animals accessories like wildbird feeders and nestboxes, rabbit hutches, dog kennels, cat trees, rodent items and kids systems. Our products range is being still diversified by our ideas and our customer's inspiration. Our offer is addressed mainly to large wholesalers and chain suppliers.

Most of our production is currently exported to Western Europe, where the interest on such products is growing.

Materials and components that we use for production are environment friendly. The timber comes from sources that support responsible forest management and hold FSC® certificate.

SOD is dedicated to quality and continuous process improvement for both customers and employees. Our responsibility is to ensure that through established standards, the level of quality at SOD matches and exceeds our customers' expectations. Very important is for us to fulfil both quality and environment standards.

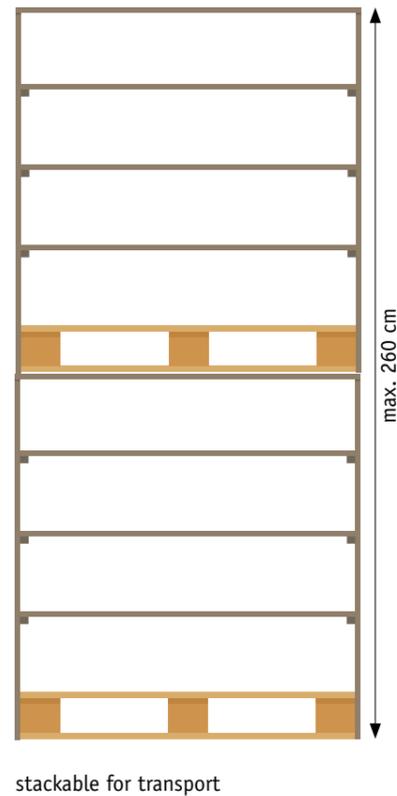

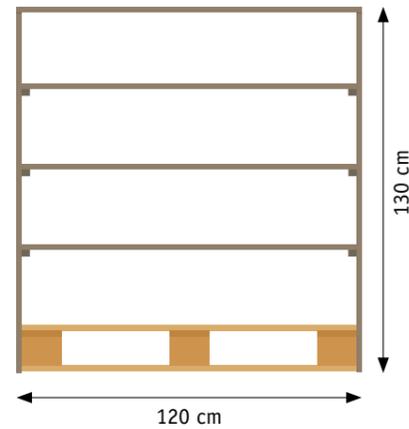

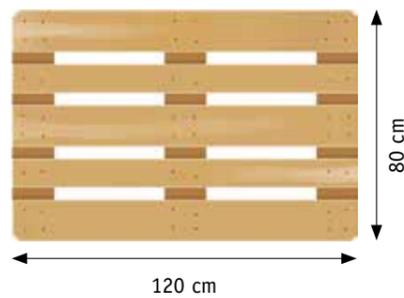

The mark of  
responsible forestry

## Displays

Our wooden displays on DIN Euro pallets are easy to handle and place in the market. All displays are stackable for transport.

We offer nine different ranges of bird tables, nest boxes and insect houses.  
Bird tables in traditional, natural or modern look.  
Nestboxes and insect houses for various species.

## Bird tables
